In the following we would like to inform you about the types of data processed by SIXT and about the purposes of such data processing. We would also like to inform you about important legal aspects of data protection, such as your rights. You are not contractually or legally obliged to provide us with your personal data. Please note, however, that you cannot enter into a vehicle rental contract with us if we are not permitted to process your data for the following purposes.

This Privacy Policy applies to the processing of personal data in our SIXT branches, on the website www.sixt.de and on other website where this text is available. Please note that for other data processing activities (e.g. in our App or for processing activities of other companies of the SIXT-group) separate privacy policies with different responsibilities may apply. Your attention will be drawn to such separate notices at the time this data is obtained.

A: Data controller, contact details of the data protection officer

The party responsible for processing your data (controller) is Sixt GmbH & Co. Autovermietung KG, Zugspitzstraße 1, DE 82049 Pullach (hereinafter also referred to as SIXT).

If you have any questions regarding data protection, please address your query to the following e-mail address: dataprotection@sixt.com

You can also contact our data protection officer by writing to the above-stated addresses (reference: Data Protection Officer).

B: Categories of personal data

The following categories of personal data may be processed by us in connection with our services:

- Master data: first name, surname, gender, date of birth, address (private and/or business), Password, costumer number
- Communication data: telephone number, e-mail address (private and/or business in each case), fax number if applicable, third party phone numbers, communication content (in particular from e-mails)
- Contract data: driver's licence data, ID card and passport data, a selfie taken using the camera on your smartphone/tablet, vehicle categories, pick-up and return branch, booked extras/services, reservation and rental contract number, self-generated PIN, result of the credit check,
- Finance data: credit card data, account and bank details
- Voluntary data: These are personal data that you provide to us on a voluntary basis, without us having explicitly requested them, and include information such as your preferences with regard to the vehicle's equipment and category, nature of complaint or answers to a survey
- Third-party data: personal data, e.g. of relatives, passengers within the scope of your rental contract
- Location data (when using the SIXT App or Mobile Web Applications): data that reveal the location of your device
- Vehicle data: e.g. vehicle identification number, model, manufacturer, licence plate,
- Telematics data (for connected vehicles): e.g. Bluetooth token, GSM trigger, mileage, fuel tank volumes, vehicle location data, vehicle events
- Special categories of data: in the event of an accident, damage to the vehicle or similar incidents, we process data relating to the respective course of events and the damage incurred. These data may be provided by customers, passengers or injured parties. The data processed in such circumstances can include health-related data such as data on injuries, blood alcohol levels, driving under the influence of narcotic substances, and the like. Biometric data are also processed in the course of validating your SIXT account

C: The legal basis for data processing at SIXT

Art. 6 (1) sentence 1 point a) of the General Data Protection Regulation (GDPR): Pursuant to this provision, the processing of your personal data is lawful if and to the extent that you have given your consent to such processing.

Art. 6 (1) sentence 1 point b) GDPR: Pursuant to this provision, the processing of your personal data is lawful if such processing is necessary for the performance of a contract to which you are party, or in order to take steps at your request prior to entering into a contract (e.g. when making the vehicle reservation).

Art. 6 (1) sentence 1 point c) GDPR: Pursuant to this provision, the processing of your personal data is lawful if such processing is necessary for compliance with a legal obligation to which SIXT is subject.

Art. 6 (1) sentence 1 point f) GDPR: Pursuant to this provision, the processing of your personal data is lawful if such processing is necessary for the purposes of the legitimate interests pursued by the controller, i.e., SIXT, or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject, i.e., you yourself.

Art. 9 (2) point f) GDPR: Pursuant to this provision, certain special categories of personal data can be processed if such processing is necessary for the establishment, exercise or defence of legal claims. These special categories of personal data include the health data of the data subjects.

D: The purposes of data processing at SIXT

1. Setting up a SIXT account

Purposes of data processing

You may set up a SIXT account via our SIXT App or website to avoid having to input data again when making further reservations/rentals and to enjoy other benefits. In order to use some of our digital products (e.g. SIXT share or Mobile Check-in), however, it is mandatory you set up a SIXT account. To set up a SIXT account, we need your master data and communication data.

You can either create an account solely on our platforms or use existing data of social networking services to create an account ("social login"). If you choose social login for account creation, you will be prompted to confirm that we may receive personal data (email address, name and last name) from Google (Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland) or Apple (Apple Inc., Apple Park Way, Cupertino, California 95014, USA). The password that you use with the social networking service will not be transmitted to SIXT. If you wish to disable social login for SIXT, you can remove access for SIXT in the settings of the respective social networking service.

To ensure that you only use a validated SIXT account, we regularly check our customer databases. If several SIXT accounts have been created for or by you, they can be merged into a single SIXT account.

Legal basis for the above processing

Art. 6 (1) sentence 1 point b), f) GDPR

Our legitimate interest in merging your personal data in case of several SIXT accounts is to optimize our customer database by preventing unnecessary multiple storage.

Recipients of your data

For the purposes mentioned above, we may transfer your data to a service provider to validate your SIXT account.

2. Validation of identity and driver's license

Purposes of data processing

Your identity and your driver's license is checked within the SIXT app through a photo identification process or by one of our employees in the SIXT branches. To this end, we process your master data, contract data (driver's license data and photo/selfie) as well as special data categories (biometric data) in the case of the app identification procedure, which is done by comparing photos/selfies with the person. We use a multi-stage process that consists of checking the person and checking the documents. Checking the person in the app includes the creation of a photo/selfie. For the so called liveness check, a short video is created in which you move your head back and forth, for example, to show that you are actually in front of the end device. In both cases the document check includes checking the security features (e.g. holograms) in order to rule out the use of forged documents. In SIXT branches we use camera systems or special card readers and in the case of the app identification procedure the camera of the end device. In order to ensure that the person who is being checked has a valid driver's license and matches the person on the identification documents, for the app identification procedure a comparison is made with the aid of biometric features. Checking people and documents requires that we gain access to the microphone and camera of your device. You can deactivate these authorisations at any time (for more information, refer in detail to our App Privacy Policy).

Once you have been validated, we delete the copy of your ID card as well as your selfie at the latest within 30 days. The copy of your driver's license will be deleted after successful vehicle rental and return, at the latest after 12 months. The information that you hold a driver's licence will be stored in your SIXT account for a maximum of six years and regularly reviewed.

Legal basis of the above processing

Art. 6 (1) sentence 1 point a), c) GDPR in connection with Section 21 of the Road Traffic Act (StVG)

Recipients of your data

For the above-mentioned purposes, we transmit your data to service providers to validate your identity and driver's licence.

3. Reserving vehicles

Purposes of data processing

If you would like to rent a vehicle, you can make a reservation in advance by using our SIXT App, website or over the phone. In this context, we process your master data, communication data and contract data, as well as your financial data, where applicable. We process your location data in order to be able to display your nearest SIXT branch in the SIXT App or on our website, provided you have given consent for your location data to be used. You have the option of deactivating access to your location at any time (for more information, refer in detail to our App Privacy Policy). If you book your vehicle via travel agencies, online travel agencies or other agents, then your master data, communication data, rental information and, if applicable, financial information, will be transferred to us by our partners.

SIXT share vehicles can only be reserved using the SIXT App. In this context, we process your master data, communication data, financial data, contract data and your location data. We process your location data in order to be able to display the SIXT share vehicles nearest to your location, provided you have enabled this function. Here you have also the option of deactivating access to your location at any

time. Choosing not to activate your location data may result in some functions not working.

We use financial service providers to process payment transactions (including security deposits for credit cards). When carrying out transactions, in addition to the data mentioned above data to determine the user's device can be processed in order to secure the payment transactions and comply with regulatory requirements (e.g. regarding strong authentication during payment transactions).

Legal basis for the above processing

Art. 6 (1) sentence 1 point a) GDPR if consent is given.

Art. 6 (1) sentence 1 point b) GDPR for data processing for reservation of vehicles including payment processing and customer service.

Art. 6 (1) sentence 1 point c) GDPR for data processing for the purpose of compliance with regulatory requirements for payment transactions and retention periods under commercial and tax law.

We use financial service providers to process payment transactions (including the deposit of security deposits for credit cards). As part of the processing, data to determine the terminal device used by the user may also be processed in addition to the data mentioned above in order to secure the payment transactions and comply with regulatory requirements (e.g., for strong authentication during payment transactions).

Recipients of your data

We disclose your data to the following recipients for the aforementioned purposes: IT service providers, call centres, collection companies, financial services providers, credit agencies, agency partners, SIXT group companies, SIXT-franchise partners and cooperating national companies.

As part of our measures to prevent fraud, we also transmit – in situations where third parties have been, or are at risk of being, defrauded – personal data to such third parties having suffered, or at risk of, fraud.

4. Renting vehicles

Purposes of data processing

We process your master data, communication data, contract data, vehicle data, financial data and any data you have provided voluntarily for the performance of your rental contract (including conclusion, execution and billing).

We process the master data, communication data, vehicle data and contract data for customer relations purposes, for example to handle any complaints or changes of reservation that you contact us about. We also process your master data and contract data for purposes of settling accounts (e.g. commissions and sales processing) with, for example, travel agencies, other agencies, franchise partners and cooperating national companies. In order to be able to fulfil your reservation request, we transfer your data to partner companies in the event that we do not have the requested vehicle or vehicle type available.

We are furthermore legally obliged – for purposes of preventing and investigating criminal offences – to compare your master and communication data with official perpetrator lists provided to us. Such comparisons also serve to ward off dangers and to facilitate prosecution by the state authorities.

We use financial service providers to process payment transactions (including security deposits for credit cards). When carrying out transactions, in addition to the data mentioned above data to determine the user's device can be processed in order to secure the payment transactions and comply with regulatory requirements (e.g. regarding strong authentication during payment transactions).

If you would like to pay the rental fee by invoice, use the products SIXT+, SIXT-share or arrange a long-term rental, we will then process your master and payment data to be able to assess your creditworthiness by obtaining the relevant information from credit agencies (cf. → Credit check).

We furthermore use your data for your and our security, for example to avoid payment defaults and to prevent property offences (in particular fraud, theft, embezzlement; cf. → Fraud prevention).

SIXT reserves the right not to enter into rental contracts with persons who have shown non-payment, breach of contract or law or improper behaviour towards customers or employees. For this purpose, we process personal data in order to exercise our right to freedom of contract. For this purpose we process your master data and communication data.

In some rental branches we use a technology that verifies the authenticity of ID documents (especially driver's licence) and records the data electronically instead of manually.

Once the rights and obligations under the rental contract have been fulfilled by both parties, your master, payment, vehicle and contract data will continue to be stored until the mandatory retention periods as stipulated by the legislature or regulators under the German Commercial Code, Tax Code and Money Laundering Act, have expired (normally between six and ten years).

Legal basis for the above processing

Art. 6 (1) sentence 1 point b) GDPR applies to the processing of data to the extent required to conclude and perform rental contracts including payment processing and customer service.

Art. 6 (1) sentence 1 point c) GDPR applies to the processing of data to the extent required to detect, prevent and investigate criminal offences, to comply with regulatory requirements for payment transactions, to examine and store driver's licence data, and to comply with retention periods under commercial and tax law.

Art. 6 (1) sentence 1 point f) GDPR applies to the processing of data to the extent required to settle accounts vis-à-vis third parties, to assert our own claims, and to mitigate risks and prevent fraud.

Our legitimate interests in using your personal data to improve our services and customer services lie in the fact that we want to offer you the best possible services and to sustainably improve customer satisfaction.

To the extent that data processing is required to perform analyses with a view to preventing damage to our company and our vehicles, our legitimate interests lie in maintaining security for costs and preventing economic disadvantages such as those arising from non-payment or the loss of our vehicles.

Recipients of your data

We disclose your data to the following recipients for the aforementioned purposes: IT service providers, call centres, collection companies, financial services providers, credit agencies, agency partners, SIXT group companies, SIXT-franchise partners and cooperation partner companies.

As part of our measures to prevent fraud, we also transmit – in situations where third parties have been, or are at risk of being, defrauded – personal data to such third parties having suffered, or at risk of, fraud.

5. Carrying out the rental contract when renting via the SIXT App

5.1. Digital vehicle rental

Purposes of data processing

At certain locations, you can book your vehicle independently via the SIXT app or mobile web applications. For this purpose, you will receive corresponding information in advance via email and / or push. A SIXT account with a validated identity and driver's license is required to use these digital services. Prior to the pick-up time indicated in the reservation confirmation, you will be given the opportunity to select a vehicle from the offer list and, if necessary, add other extras to your rental agreement. With the start of the rental via the SIXT app (by confirming the corresponding buttons), we process your master data and contract data for the creation of the contract documents as well as correct billing and invoicing. Once the rental contract has been concluded, you will receive further information on the vehicle key handover. You will need your SIXT app or your reservation number to pick up the vehicle key.

Legal basis for the above processing

Art. 6 (1) sentence 1 point b) GDPR.

5.2. Unlocking vehicles via the SIXT App

Purposes of data processing

You need to access our vehicles via the SIXT App in order to carry out the rental contract for digital products (e.g. SIXT share or similar). This is done by entering your self-generated PIN and activating the Bluetooth function of your smartphone or via Global System for Mobile Communication (GSM) together with your location data, provided you have enabled this function. You have the option of deactivating access to your location or the Bluetooth function at any time. Choosing not to activate your location data or Bluetooth may result in some functions not working. We require your master data, contract data and telematics data for processing purposes.

Legal basis for the above processing

Art. 6 (1) sentence 1 point a) and b) GDPR.

5.3. Notification of locking and unlocking errors in the SIXT App

Purposes of data processing

When using the SIXT App to lock and unlock vehicles, any errors in this process, e.g. a window being left open before returning the vehicle, are displayed and must then be remedied. In this context, we need your contract data, vehicle data and telematics data.

Legal basis for the above processing

Art. 6 (1) sentence 1 point b) and f) GDPR.

Our legitimate interest in using your personal data in this type of processing is to prevent property offences in respect of our vehicle fleet and to protect our contractual and non-contractual rights.

5.4. Digital parking with SIXT share

Purposes of data processing

When you use SIXT share, we will cover the parking costs within the business area in accordance with the General Terms and Conditions of Rental of SIXT share. In this context, we process your contract data and telematics data.

Legal basis for the above processing

Art. 6 (1) sentence 1 point b) and f) GDPR.

Our legitimate interest in using your personal data in this type of processing is to ensure that our vehicles are legally parked in contractual territories.

5.5. Digital payment at partner filling stations and charging stations

Purposes of data processing

With SIXT share, you can fill up or charge the vehicle yourself at partner filling stations or charging stations and approve the fuel or electricity costs via the SIXT App. For the fueling, select the corresponding pump at a partner filling station in the SIXT App and start the refueling process. You can only select a pump if you have activated your location data in the SIXT App, as this is how it can be determined that you are within a radius of 300 metres of a partner filling station. You have the option of deactivating access to your location at any time. Choosing not to activate your location data results in some functions not working. Once the refuelling process is completed, the fuel quantity and the costs are sent to SIXT for invoicing. In this context, your contract data, telematics data and location data are processed.

With SIXT-share you can charge vehicles at partner charging stations. An overview of these stations is provided in the SIXT app. We process your location data to display the nearest charging stations. For the activation of the charging station, there is a charging card in the vehicle. The charging process described in the SIXT app must be followed.

Legal basis for the above processing

Art. 6 (1) sentence 1 point b) GDPR.

5.6. Locking the vehicle via the SIXT App

Purposes of data processing

With some products (e.g. SIXT share or similar) you need to lock the vehicle again using the SIXT App in order to terminate the rental of these products. Vehicles are locked via the Bluetooth function of your smartphone or via GSM in connection with your location data, provided you have enabled this function. You have the option of deactivating access to your location or the Bluetooth function at any time. Choosing not to activate your location data or Bluetooth may result in some functions not working. We process your contract data and telematics data when vehicles are locked using the SIXT App.

Legal basis for the above processing

Art. 6 (1) sentence 1 point b) GDPR.

5.7. Returning the vehicle via the SIXT App

Purposes of data processing

To ensure an orderly return and proper billing for a number of products (e.g. SIXT share or similar), when a vehicle return request is made, we check to see if the vehicle is in the contractual territory or at a suitable location and if it can be returned. We process the length of time you used the vehicle, the mileage and the amount of fuel in the tank to be able to invoice properly, and as just mentioned, we check the vehicle's location to determine whether a ride may be ended in accordance with our conditions. In this context, we process your master data, contract data, communication data, financial data and telematics data.

Legal basis for the above processing

Art. 6 (1) sentence 1 point b) GDPR.

6. Connected vehicles

Purposes of data processing

Our vehicles may be linked to each other via what is referred to as connected vehicle functionalities. These enable us to receive vehicle information, such as fuel tank volumes, mileage, speed, condition of vehicle sensors, tyre pressure, date on which the next service is due, the activation of safety systems (e.g. airbags), and to send certain commands to the vehicle. The vehicle data are collected by SIXT or by the respective vehicle manufacturer, enabling us to properly maintain, care for and organise our fleet of vehicles. In this context, we process your contract data, vehicle data and telematics data.

Other data processing processes linked to the connected vehicle are described at the respective positions in this Privacy Policy where reference is made to telematics data.

Legal basis for the above processing

The relevant legal basis applicable to processing telematics data under this Privacy Policy (for more information, refer to → Carrying out the rental contract when renting via the SIXT App; → Breach of contract or the law) is determined by how the telematics data are specifically processed. But generally this is:

Art. 6(1) sentence 1 point f) GDPR (maintaining, caring for and organising our fleet of vehicles).

Our legitimate interest in processing your personal data for maintaining, caring for and organising our fleet is to enable us to provide you

with roadworthy vehicles at all times. It also enables us to promptly identify and carry out any necessary repair work.

Recipients of your data

We disclose your data to the following recipients for the aforementioned purposes: IT service providers.

7. Credit check

Purposes of data processing

In order to reduce the risk of non-payment, the credit rating of natural persons is checked for the conclusion of long-term rentals and for the SIXT+ and SIXT-share products. When using SIXT-share, the credit check is carried out before the start of the journey as soon as the expected invoice amount for the rental exceeds the currently approved limit of your credit card.

SIXT transmits personal data collected within the scope of these contractual relationships regarding the application, the execution and termination of this business relationship as well as data regarding non-contractual behaviour or fraudulent behaviour to SCHUFA Holding AG, Kormoranweg 5, 65201 Wiesbaden ("SCHUFA").

The legal basis for such transmissions is Art. 6 (1) sentence 1 point b) and Art. 6 (1) sentence 1 point f) GDPR. Transmissions on the basis of Art. 6 (1) sentence 1 point f) GDPR may only proceed to the extent that this processing of personal data is necessary to protect legitimate interests of SIXT or third parties and does not outweigh the interests or rights and freedoms of the data subject that require the protection of personal data. The exchange of data with SCHUFA also serves the fulfilment of legal obligations to conduct credit checks of customers (§ 505a and 506 of the German Civil Code).

The SCHUFA processes the data received and also uses it for the purpose of profile building (scoring) in order to provide its contractual partners in the European Economic Area and in Switzerland as well as, if applicable, other third countries (provided that an adequacy decision of the European Commission exists for these) with information, among other things, for the assessment of the creditworthiness of natural persons. More detailed information on SCHUFA's activities can be found at www.schufa.de/en/schufa-information/schufa-information_en.jsp.

Legal basis for the above processing

Art. 6 (1) sentence 1 point b) and f) GDPR.

Our legitimate interest in processing your personal data for credit assessment purposes is that we want to protect ourselves against payment defaults.

Recipients of your data

For the above-mentioned purpose we transmit data to SCHUFA Holding AG.

8. Marketing and direct advertising

Purposes of data processing

We perform a range of different measures for advertising purposes, to promote customer loyalty, to optimise customer offers and for market research and survey purposes. We may use your data collected over the past three years to offer you rental cars and other mobility solutions, suitable extras or services, such as mileage packages, recommended insurance packages or corresponding additional services like a diesel option. These data also enable us to have your preferred vehicle makes and models available for you. Extras or additional services can be offered to new customers on the basis of preferences shown by similar customers. In this context, we process your master data, contract data and, if enabled, your location data.

SIXT carries out the aforementioned marketing and direct advertising measures for itself and for the companies of the SIXT group listed in the Appendix as well as for SIXT franchisees and SIXT cooperating national companies.

Our marketing measures include raffles that are typically subject to separate terms and conditions. If you participate at one of our raffles, we will process data that you submit to us (usually by entering it in a entry form on our website or in one of our stations) for the purpose of taking part in the competition, to the extent necessary to carry out and conclude the raffle or competition.

We process your e-mail address, which we have received from you in connection with the sale of a product or service, for the purpose of direct advertising for our own similar products or services.

You can object to your data being processed or used for the purposes of direct marketing at any time without incurring any costs other than those normally applicable to data transmission (e.g. internet connection costs, postage). Please send any objections to: Sixt GmbH & Co. Autovermietung KG, reference: Widerspruch (objection), Zugspitzstraße 1, DE 82049 Pullach or via email to: dataprotection@sixt.com

In the event of an objection, your e-mail address will be placed on our advertising blocking list. In this way, we ensure that your data is not processed for advertising purposes. If you do not wish to be included in our advertising blocking list, you can also ask us to delete your e-mail address (see → J: Rights of data subjects). However, you may then receive advertising messages again in the future if the legal requirement are met.

Legal basis for processing

Art. 6 (1) sentence 1 point a) GDPR applies to data processing for purposes of implementing direct marketing measures that require explicit prior consent.

Art. 6 (1) sentence 1 point b) GDPR applies to data processing for the performance of a contract (e.g. contract to participate in a raffle) or in order to take steps prior to entering into a contract.

Art. 6 (1) sentence 1 point f) GDPR applies to data processing for purposes of implementing direct marketing measures that do not require explicit prior consent, and of implementing the marketing measures mentioned (→ Purposes of data processing); Art. 6 (1) sentence 1 point f) i.V.m. Art. 21 (3), Art. 17 (3) point b) GDPR for processing regarding our advertising blocking list.

Our legitimate interests in using your personal data for purposes of implementing direct marketing measures and the marketing measures mentioned lie in the fact that we want to convince you of our services and promote a lasting customer relationship with you.

Recipients of your data

For the purposes described in the foregoing, we disclose your data to IT service providers, call centres, advertising partners and providers of customer loyalty and bonus programmes.

9. Payback

If you participate in the PAYBACK programme, PAYBACK Rabattverein e.V., PAYBACK GmbH (together "PAYBACK") and SIXT are joint controllers for certain types of data processing. In this respect, they have stipulated in agreements which entity fulfils which data protection obligations. Upon request, PAYBACK will make the essential content of these agreements available to you. Contact details for PAYBACK and further details of the data privacy policy concerning participation in the PAYBACK programme can be found at <https://www.payback.de/info/hinweise-datenschutz>

10. Business customers/payment by third parties

Purposes of data processing

You can reserve and rent our vehicles in the SIXT App with conditions of your employer. In this case, your personal data are processed in accordance with this Privacy Policy. This also applies mutatis mutandi if a third party is to pay the invoice. We transmit personal data collected during the rental (in particular in the form of invoices and rental contracts, possibly also in the form of monthly statements, as well as possible traffic tickets and accident reports) to your employer or the third party who is to pay your invoice.

You have the option of signing a framework agreement with us electronically. In this context, we process your master data and your telecommunications data. Our service provider will send you a personal link for you to sign the contract electronically.

We also work together with service providers to ensure that our business customer records are up to date. In this context, we transmit company data, which may contain personal data, for instance, about the management and contact details of the contact persons, to our service provider and receive back, where applicable, updated data.

Legal basis for the above processing

The relevant legal basis applicable to processing data under this Privacy Policy is determined by how the data are specifically processed.

Art. 6 (1) sentence 1 point b) GDPR applies to the processing of data to the extent required to implement reservations, to conclude and perform rental and framework agreements and for customer relations purposes, otherwise Art. 6 (1) point f) GDPR.

Insofar as the processing of data for the purpose of settling the account with your employer or third parties or for clarification of facts (in particular in the case of accidents or administrative offences) is concerned, our legitimate interest is in being able to assert invoice amounts and other claims or to determine the party against which the damage claim is asserted.

Recipients of your data

For the purposes described in the foregoing, we disclose your data to your employer or the third person that will settle your invoice.

11. Damage and accidents

Purposes of data processing

In the event of damage being done to our vehicles, or our vehicles being involved in accidents, we process your personal data for the following purposes:

- providing customer services in cases of damage,
- handling claims,
- processing damage resulting from accidents (processing based on information provided by you and third parties such as the police, subsequent renters, witnesses, etc.),
- settling claims,

- receiving and processing complaints,
- providing help and assistance,
- securing and asserting our own claims.

In this context, we process your master data, communication data, contract data, financial data, third-party data, vehicle data, telematics data and, where applicable, special categories of personal data (health data).

Legal basis for processing

Art. 6 (1) sentence 1 point b), c), f) GDPR and Art. 9 (2) point f) GDPR.

Our legitimate interest in using your personal data lies in handling cases of damage or accidents properly to protect our company against damages. This also includes our legitimate interest in exercising or defending legal claims when handling damages and accidents. We also have a legitimate interest in always providing you with damage-free vehicles. We are moreover obliged, pursuant to our contractual relations with third parties (e.g. insurance companies), to process your data for purposes of settling claims. Our legitimate interests in this respect lie in ensuring that we observe the contract terms.

12. Automated damage detection

Purposes of data processing

At certain locations, SIXT uses automated damage detection systems equipped with multiple cameras that are installed at the respective return stations. The cameras of these damage detection systems take high-resolution photos of the entire vehicle in order to determine any damage to the vehicle. Here, we process contract data, vehicle data and photos.

The processing of this data takes place to identify SIXT vehicles that pass through the damage detection system and to automatically detect and document any existing damage. Through technical and organizational measures, it is ensured that only data from SIXT vehicles are further processed.

Legal basis for processing

Art. 6 para. 1 sentence 1 letter f) GDPR

Our legitimate interest in processing your personal data in the context of automated damage detection is to increase efficiency and customer satisfaction, as well as the possibility to provide evidence when enforcing, exercising or defending legal claims. The increase in efficiency is expressed in the elimination of the manual and time-consuming vehicle check. Customer satisfaction is increased insofar as all damage to a vehicle is documented at all times by the automatic damage detection system and it is thus possible to determine whether a customer has caused a detected damage or whether this damage was already present before the vehicle was used.

Recipients of your data

For the above-mentioned purposes, we transmit your data to service providers/suppliers of damage detection systems.

13. Fraud prevention

Purposes of data processing

We use cookies and other technologies to process data (→ cf. Cookies and similar technologies) to determine the end device used by the user and user behaviour. The data is stored in databases for fraud prevention, so we can determine, for example, whether logon procedures have already been carried out with your end device in the past and whether the device is correspondingly "trustworthy". If you log on with unknown end devices, we can inform you that this may represent a security risk. The databases also store data on end devices that have already been used to commit (attempted) fraud, as well as any associated master data, communication and contract data. During a reservation process, we retrieve a risk assessment concerning the user's end device from the database of a specialised service provider. This risk assessment on the probability of a fraud attempt takes into account, among other things, whether the end device has connected via different service providers, whether the end device shows that the geo reference changes frequently, the number of transactions that have been made via the end device, and whether a proxy connection is used. In addition, for the purpose of risk assessment, we check whether your e-mail address has been reported for conspicuous behaviour or fraud patterns in the database of specialised fraud prevention service providers in the past and include this into our own decision to execute contracts or issue vehicles.

Legal basis for processing

Art. 6 (1) sentence 1 point f) GDPR

Our legitimate interest in using your personal data in this type of processing to prevent property offences is to protect our vehicle fleet and our contractual and non-contractual rights.

Recipients of your data

For the above-stated purpose, we transmit data to specialized fraud prevention providers. Those providers may be located in countries that do not have an adequate level of data protection (in such a case, however, the data transfers are made on the basis of appropriate safeguards, cf. → E: Transfer to third countries).

14. Breach of contract or the law

Purposes of data processing

In the event of signs of criminal activity, e.g. theft, embezzlement, joy-riding, unauthorised use of vehicles or of vehicles being used in breach of contract, e.g. exceeding the maximum rental period or subrenting, we will take the following action for the purposes of preventing damage and protecting the ownership of our vehicles, vehicle parts and fuel:

- Leaving the contractual territory: Some of our vehicles are equipped with an alarm system that alerts us in the event you leave the contractual territory. An automatic notification is sent to us by way of this alert. At the same time this automatic notification is sent, master data, communication data, contract data and telematics data are attributed to you so that you can be contacted and made aware of the breach of contract.
- Locating stolen vehicles: In order to locate vehicles in the event of theft or embezzlement, some of our vehicles are equipped with an alarm system, which is only used if there is a well-founded suspicion of unlawful behaviour in a specific case. In such a case, vehicle and telematics data can be attributed to you.
- Unauthorised tyre change/fuel tank emptying: our vehicles are equipped with an alarm system to detect any unauthorised tyre changes or fuel tank emptying. An automatic notification is sent by way of this alert. Master data, contract data, communication data, vehicle data and telematics data are only attributed to you if such unauthorised conduct is detected.
- Voucher abuse: we compare your legacy data (if your SIXT account was deleted) with the new data (when a new SIXT account is created) to detect any unauthorised voucher use when using our digital products (SIXT share). To this end, your legacy data are stored for six months. In this context, we process your master data, communication data, contract data and special categories of personal data (biometric data).
- Forwarding your data to the authorities: we may forward your master data, communication data, contract data, financial data and telematics data to the (criminal investigation) authorities in cases of criminal conduct or a risk being posed to public safety.

Should the competent authorities suspect you of having committed an administrative (e.g. speeding or parking illegally) or criminal offence with one of our vehicles then we will process not only the master data pertaining to you that we have stored, but also the data conveyed to us by the competent authorities.

Legal basis for processing

Art. 6 (1) sentence 1 point c), f) GDPR in conjunction with the respective statutory regulation.

Our legitimate interest in using your personal data lies in protecting our property by means of the aforementioned measures so as to protect our company against damages. We also have a legitimate interest in protecting our fleet of vehicles as well as our contractual and extra-contractual rights.

15. Improving our processes and offerings

Purposes of data processing

To improve the quality of our processes and offers, as well as to optimise our customer relations, we perform analyses of potential, with the aid of probability values in respect of future rentals and take-up rates for our offers, which take the form of evaluations and reports as well as customer satisfaction surveys, with a view to meeting the expectations of our customers in terms of providing high-quality products and services. This also serves to enable us to define sales revenue targets for our company, optimise capacity planning to improve vehicle usage as well as to identify and troubleshoot sources of errors. Our customers are grouped according to specific criteria in order to perform the analyses of potential. These criteria include in particular order history, sales revenues and claim statistics.

We also process your master data, communication data and contract data in connection with our collaboration with agency partners, SIXT group companies, SIXT-franchise partners and cooperating national companies for purposes of optimising the related processes and offers (cf. → Reserving vehicles, → Renting vehicles).

The aforementioned processing activities are carried out with the aid of data base applications to effectively administer and analyze the collected data. We further use the data base applications for internal purposes, e.g. business evaluations, marketing strategies, price calculation for our products and cost controls.

The processing steps within the scope of the data shop are performed in an anonymised or pseudonymised form.

We also process address data originating from external service providers to update our address database and to ensure that the master data we use for contract handling is correct.

Legal basis for processing

Art. 6 (1) sentence 1 point a) of the General Data Protection Regulation (GDPR) applies where consent is required to implement measures intended to optimise our processes and offers.

Art. 6 (1) sentence 1 point f) GDPR.

Our legitimate interest in using your personal data lies in improving our services and further developing our products on an ongoing basis. We also have a legitimate interest in improving customer satisfactions levels.

16. Refer a friend programme

16.1. Personal data of recommender

Purposes of data processing

Under the Refer a friend-Program registered SIXT customers ("Recommender") are able to easily recommend SIXT services to their friends and relatives ("Friend"). For this purpose, the Recommender is provided with a referral link which he/she can forward to friends and relatives by using his/her preferred channel (e.g. by SMS, e-mail, WhatsApp, Facebook Messenger). Recommender as well as Friend will each receive a premium for every Friend who registered via the forwarded referral link and who then uses SIXT services.

As far as you as a Recommender participate in our Refer a friend-Program part of your master data and communication data (first name, last name, e-mail address and your IP address) will be processed for the purpose of program implementation as well as premium handling and avoidance of fraud. In addition, every referral link contains a unique identification (containing your first and last name) which enables us to track whether the friend you have contacted is registering for our offer. Participation in our Refer a friend-program is voluntary. Please note that without providing your data you cannot participate in the Refer a friend-program.

Legal basis of the processing

Art. 6 (1) sentence 1 point b) GDPR for data processing for the purpose of implementation of the Refer a friend-program and fulfilment of the respective contractual obligations including your right of participation, technical processing of the program, provision of the premium

Recipients of your data

For the purposes described in the foregoing we use IT service providers as well as providers of customer loyalty or bonus programs where required for the technical processing of the Refer a friend-program. They get access to the following data: first name, last name, e-mail address and IP address of the Recommender.

16.2. Personal data of Friend

Purposes of data processing

The recommendations sent by Recommender to friends, relatives or acquaintances contain a referral link which enables the respective recipient ("Friend") to register for our offer. We only receive personal data from you as a Friend when you, as recipient of a referral, click on the referral link. As part of the Refer a friend-program we only provide Recommender with a referral link which from a technical point of view enables us to record a Friend's registration and assign it to Recommender in order to provide both Recommender and Friend with a premium subject to a successful referral. It is Recommender's responsibility to whom they send the referral link in order to recommend a person. In case you ignore the recommendation by not clicking on the referral link, neither SIXT nor any possible service provider involved as part of the Refer a friend-program will receive and process your personal data.

Every referral link contains a unique identification of Recommender (including first and last name) which enables us to assign your registration to Recommender. In case you, as recipient of a referral, click on the referral link we gather and process this information in order to determine whether your registration follows a recommendation as well as to handle the premium. We can only explicitly assign this information to your person if you register as a customer for our offer and in this context provide your master data. The processing of the data gathered as part of the Refer a friend-program will be carried out exclusively for the purpose of ensuring the premium for you and Recommender and in order to allow for the respective registration for the SIXT offer.

Legal basis of the processing

Art. 6 (1) sentence 1 point b) GDPR for data processing for the purpose of providing the premium as part of the registration and set up of your account.

Art. 6 (1) sentence 1 point f) GDPR for data processing for the purpose of implementing the Refer a friend-program, in particular the assignment of the referral to Recommender for the provision of the premium.

Our legitimate interests in using your personal data for the purpose of implementing the Refer a friend-program lies in our desire to ensure the effective and user-friendly handling of the program, in particular the proper recording of a Friend's registration in order to provide Friend and Recommender with the premium as well as to fulfil the respective contractual obligations vis-à-vis Recommender.

Recipients of your data

For the purposes described in the foregoing we use IT service providers as well as providers of customer loyalty or bonus programs where required for the technical processing of the Refer a friend-program. They get access to the following data: first name, last name and email address of the Friend.

17. Customer Service

Purposes of data processing

You can contact our Customer Service by telephone, e-mail, chat and classic mail. Depending on the reason for your request, we may process master data, communication data or contract data in this context.

For our chat service, we store message histories for up to 90 days. You can decide at any time which personal data you would like to disclose during the chat. To provide the service, we use a voice and chat solution provided by Amazon Web Services, Inc. and its affiliates

(collectively "AWS"). More detailed information about AWS's activities can be found online at <https://aws.amazon.com/privacy/>.

To troubleshoot a technical issue with a connected vehicle, you can also contact our Customer Service. The Customer Service can remotely unlock or lock a vehicle for you after verifying a number of security features. Therefore, certain features can be requested to identify you (e.g. driving licence number, date of birth, self-generated PIN and location provided by you). The location can be compared with GPS location data of the vehicle. In this context, we process your master data, contract data, communication data, telematics data and location data.

Legal basis for processing

Art. 6 (1) sentence 1 point b) GDPR.

18. Using mobility products of our cooperation partners

Purposes of data processing

You can rent mobility products (e.g. e-scooters or mopeds) from cooperation partners (see below → Recipients of your data) via our app. For this purpose, we process your master data, communication data, contract data as well as your finance data to collect the rental price and we exchange personal data with the cooperation partner. For certain processing of your data in connection with the use of the mobility products, SIXT and the cooperation partner are jointly responsible (joint controllers). In this respect, we have determined our respective responsibilities for compliance with the obligations under data protection law. SIXT will provide you with the essence of the arrangements on request (for contact details see → I: Profiling).

Legal basis for processing

Art. 6 (1) sentence 1 point b) GDPR

Recipients of your data

We transmit data to TIER Mobility SE and MILES Mobility GmbH for the above-mentioned purpose. More detailed information on the activities of the cooperation partners can be found online at <https://www.tier.app/privacy-notice/> and <https://miles-mobility.com/en-de/data-protection>.

19. Cooperations with vehicle manufacturers

Purposes of data processing

SIXT carries out promotions with vehicle manufacturers from time to time. For example, you may be given the opportunity to test drive certain vehicle models or you may be able to use vehicles from certain manufacturers as part of our mobility offers. In these cases, SIXT will inform you of the cooperation partners before the promotion begins.

will typically pass on the following data to the cooperation partner: your name, your e-mail address, your telephone number, the place and the duration of the drive (data may vary depending on the promotion and will be shown separately with the respective promotion). If you have already registered with the SIXT cooperation partner, e.g. via an app, the cooperation partner may also use your identification number, which the cooperation partner has assigned to you as part of a registration, to identify you. The cooperation partner of SIXT can then contact you with your consent to ask you about your product experience. In addition, SIXT may use this data itself for direct marketing purposes.

Legal basis for processing

For data transfer to cooperation partners depending on the cooperation either Art. 6 para. 1 sentence 1 lit. a GDPR (consent) Art. 6 para. 1 sentence 1 lit. b GDPR (fulfilment of a contract), otherwise Art. 6 para. 1 lit. f GDPR (legitimate interests of SIXT).

20. Events and donations

Purposes of data processing

We organise a variety of different events to promote customer relations and customer loyalty. We also organise a number of charitable activities, such as appeals for donations. We process your master data and communication data for the aforementioned purposes.

Legal basis for processing

Art. 6 (1) sentence 1 point f) GDPR

Our legitimate interests in using your personal data for customer service, customer loyalty and charitable purposes lie in our desire to, on the one hand, offer the best possible services and sustainably raise customer satisfaction, and, on the other, fulfil the social responsibilities that we, as a large company, are bound to.

21. Access records

Purposes of data processing

When you access our websites, we process the data that your browser transmits in order to enable you to visit the websites. This is a technically necessary process in which data is transmitted (such as IP address, date and time of the request, operating system, browser type including language and version). The data is used to ensure stability and security, i.e. to control server capacities, to find and eliminate errors and to defend against as well as to analyze attacks or security incidents. For this purpose, the data is processed for a limited period of time in so-called protocols or log files and deleted or anonymized after analysis. In the case of anonymization, the data is modified in such a way that information relating to identified or identifiable persons can no longer be attributed to a person or can only be attributed to a person with a disproportionate expenditure of time, cost and manpower.

Legal basis for processing

Art. 6 (1) sentence 1 point f) GDPR

Our legitimate interest in processing your personal or personally identifiable information is, as just mentioned, to ensure the stability and security of our websites.

22. Cookies and similar technologies

Purposes of data processing

Our websites use cookies and similar technologies. Cookies are small text files that are copied from a web server onto your device and assigned to the browser you are using, so that certain information can flow to the entity that sets the cookie. Cookies cannot execute any programmes or infect your computer with viruses. Further information on cookies and on deactivating them can be found in the cookie policy of the respective website (accessible via the link in the respective cookie/consent banner and under the menu item "Privacy Policy").

Legal basis for the processing

The legal basis for these data processing operations can be found in Art. 6 para. 1 p. 1 lit. a) (for cookies that are not strictly necessary for us to provide a service you have explicitly requested) and f) GDPR (for cookies that are strictly necessary for us to provide a service you have explicitly requested), if processing of personal data is performed.

Our legitimate interests in processing your personal data via our websites lie in our desire to optimize our internet offering and, as such, offer our customers best possible services and sustainably increase customer satisfaction.

E: Transfer to third countries

If you use our services to reserve vehicles that are to be rented in a third country, we transmit your personal data and the data of any additional drivers to our business partners in such third country. This also applies if you use partner programmes from third countries. In cases of damage and/or accidents suffered in a third country, we may send your personal data and data of any additional drivers to the competent authorities and to insurance companies in such third country.

The transfer of your data to a third country is based on an adequacy decision by the European Commission. If no adequacy decision by the European Commission exists for the respective third country, then the transfer to that third country will take place subject to appropriate safeguards as per Art. 46 (2) GDPR. You can request copies of the aforementioned safeguards from SIXT by writing to the address specified above (cf. → A: Data controller, contact details of the data protection officer). Third countries are countries outside the European Economic Area. The European Economic Area comprises all countries of the European Union as well as the countries of the so-called European Free Trade Association, which are Norway, Iceland and Liechtenstein.

F: Categories of recipients of your data

We sometimes draw on the services of external service providers and companies belonging to the SIXT Group to fulfil our contractual and statutory obligations and to fulfil our legitimate interests.

We may also transfer your personal data to other recipients such as public authorities, e.g. for statutory disclosure requirements to tax authorities and prosecuting authorities or to fining authorities for administrative offences, to credit institutions, e.g. to handle payments, to companies for parking management, to experts, e.g. to manage claims, or to lawyers, e.g. to defend and assert legal claims.

G: Duration of storage

We store your personal data until they are no longer necessary in relation to the purposes for which they were collected or otherwise processed (cf. → D: The purposes of data processing at SIXT). Your SIXT account will be deleted if you do not use it to rent a vehicle from SIXT for six years. We carry out such deletions once a year.

Where we are under legal obligation to store personal data, we will store personal data for the preservation period stipulated by law. These include statutory periods of limitation, which may be anywhere between three and thirty years. There may also be retention periods stipulated of between six and ten years for tax and commercial reasons under the German Commercial Code and the Tax Code. During this period, your data may be subject to restricted use within day-to-day operations if its processing serves no further purposes. The legal basis for this storage is Art. 6 (1) sentence 1 point c) GDPR in conjunction with the respective statutory regulation.

H: Automated decision-making.

The aforementioned data processing does not include any automated decision-making pursuant to Art. 22 GDPR.

I: Profiling

We sometimes process your data in an automated way with the aim of evaluating certain personal aspects (profiling). We use profiling in the following cases:

- We evaluate data by means of what are known as connected vehicle functionalities in order for us to be able to maintain, care for and organise our fleet of vehicles. These measures are also intended to protect you (cf. → D: The purposes of data processing at SIXT, No. 6).
- We perform analyses of potential to improve the quality of our processes and offers and to optimise our customer relations. To this end, our customers are grouped according to certain criteria, such as order history, sales revenue and claims statistics (cf. → D: The purposes of data processing at SIXT, No. 15).
- We implement different measures to enable us to provide you with targeted information and advice about products. These make it possible to pursue appropriate advertising activities including market research and surveys (cf. → D: The purposes of data processing at SIXT, No. 8).

J: Rights of data subjects

You can assert the rights mentioned below. Your requests to assert data protection rights and our responses to them will be stored for documentation purposes for a period of three years and in individual cases longer for the establishment, exercise or defense of legal claims.

Legal basis for the above processing

Art. 6 (1) sentence 1 point f) GDPR

Our legitimate interest is protecting against claims or fines under Art. 82, 83 GDPR and fulfilling our accountability obligations under Art. 5 GDPR.

1. Right of access by the data subject, Art. 15 GDPR

You have the right to, at reasonable intervals, obtain information about your personal data under storage. The information you are entitled to includes information about whether or not SIXT has stored personal data concerning you, about the categories of personal data concerned, and about the purposes of the processing. Upon request, SIXT will provide you with a copy of the personal data that are processed.

2. Right to rectification, Art. 16 GDPR

You also have the right to obtain from SIXT the rectification of inaccurate personal data concerning you or to have incomplete data completed.

3. Right to erasure, Art. 17 GDPR

You furthermore have the right to obtain from SIXT the erasure of personal data concerning you. We are under obligation to erase personal data in certain circumstances, including if the personal data are no longer necessary in relation to the purposes for which they were collected or otherwise processed, if you withdraw the consent on which the processing is based, or if the personal data have been processed unlawfully.

4. Right to restriction of processing, Art. 18 GDPR

Under certain circumstances, you have the right to have the processing of your personal data restricted. These include circumstances in which you contest the accuracy of your personal data and we then have to verify such accuracy. In such cases, we must refrain from further processing your personal data, with the exception of storage, until the matter has been clarified.

5. Right to data portability, Art. 20 GDPR

Should you opt to change to a different vehicle rental company, you have the right either to receive, in a machine-readable format, the data that you provided to us based on your consent or on a contractual agreement with us, or to have us transmit, also in a machine-readable format, such data to a third party of your choice.

6. Right to object, Art. 21 GDPR

a) Right to object in certain cases.

If the processing of your data by SIXT is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller (Art. 6 (1) sentence 1 point e) GDPR) or is based on the legitimate interests of SIXT (Art. 6 (1) sentence 1 point f) GDPR), then you have the right to object at any time, on grounds relating to your particular situation, to the processing of your data. This also applies to any profiling based on this provision as defined by Art. 4 no. 4 GDPR, which we use for what are referred to as connected vehicle functionalities, for improving our processes and offerings or for advertising purposes. We will then end the processing, unless we can present compelling legitimate grounds for such processing that supersede the grounds for ending the processing.

b) Right to object against the processing of data for the purposes of direct marketing (as defined by section D, no. 8 of this Privacy Policy)

In individual cases, we process your personal data for direct marketing purposes. You have the right to object to your personal data being processed for the purposes of such marketing activities; this also applies to profiling to the extent that it is associated with such direct marketing.

If you object to your data being processed for direct marketing purposes, we will no longer process your personal data in this way.

You may exercise your right to object without the need to adhere to a particular format and direct it to:

Sixt GmbH & Co. Autovermietung KG, Zugspitzstraße 1, DE 82049 Pullach

or to the e-mail address: dataprotection@sixt.com

7. Right to withdraw, Art. 7 (3) GDPR

If data processing at SIXT is based on your consent, then you have the right to, at any time, withdraw the consent you granted. The withdrawal of consent shall not affect the lawfulness of processing between the time consent was granted and the time it was revoked.

8. Contact information to exercise the rights of data subjects

If you wish to exercise your rights as a data subject, please direct such requests to the e-mail address: dataprotection@sixt.com.

9. Right to lodge a complaint, Art. 77 GDPR

You have the right to lodge a complaint with a supervisory authority (Art.77 GDPR). You can exercise this right before a supervisory authority in the Member State in which you are resident, where your place of work is or the place where the suspected infringement is committed. In Bavaria, where SIXT has its headquarters, the competent supervisory authority is:

Bayerisches Landesamt für Datenschutzaufsicht (BayLDA)
Promenade 18
D-91522 Ansbach

General information

We reserve the right to amend and adapt this Privacy Policy with effect for the future.

Current version: August 2023

Appendix: Companies

Sixt GmbH & Co. Autovermietung carries out the marketing and direct advertising measures described in the Privacy Policy for itself and for the following companies:
